SIR

Subject - Appointment of a Special Mobile Gang for attending to the Intensive Cleaning of the B'lore City

---

I have the honour to state that, as the Bangalore City has been growing very rapidly in recent years, owing to the formation of new extensions and as conjestion in the several parts of the City has considerably increased within the last two or three years due to the movements of the Military and the starting of the Hindusthan Air Craft Factory, the existing sanitary staff is not adequate to satesfactorily cope with the daily sanitation work of the City It is found necessary to arrange for the Intensive Cleaning of the City daily by appointing a Special Gang for the purpose

2 A note was placed before the Municipal Council explaining the above facts and proposing the entertainment of an additional staff involving an annual expenditure of Rs 19,644/- for the Health Department and of a sum of Rs 10,000/- towards non-recurring charges for purchasing a lorry and necessary implements for the Health Department and also the entertainment of an additional staff involving an annual expenditure of Rs 9,534/- for the Engineering Department

3 The Municipal Council have approved of the proposal at their meeting held on 8th May 1944 A copy of the Council resolution together with a copy of the note referred to above is herewith forwarded for favour of obtaining the sanction of Government in the matter

4 The expenditure on this behalf during the current year will be met out of the closing balance and due provision in this behalf will be made in the annual budgets for the coming years

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Subject No 1

Council resolution dated 24-4-44 deferring the Commissioner's Note regarding the Entertainment of a Mobile Gang in connection with the Intensive Cleaning Campaign

---

The President said that copies of the Commissioner's Note re the entertainment of Mobile Gang had already been circulated among ex the Members and that they may take up the subject and consider it Accordingly the subject was aken up

The President explained the general principles of the Note and said that provision had been made therein for 100 sweepers, 50 gangmen, 8 silteerts and 2 lorries to start with and that this was a modest scheme Compared to the benefit that is likely ya to be derived by the entertainment of this gang, the cost of ~~28xthousan~~ twentynine thousand and odd rupees was practically nothing and he said he was sure of the hearty cooperation of the House in this affair

Explaining the details of the Scheme, the President said that every week a particular area in a division would be selected for intensive cleaning, that this would be intimated to the Members, the residents of the locality and the to the officers of the Municipality so that they might point out the defects in the drains, the underground drainage etc On the day of intensive cleaning these would be attended to The water Supply Department will also attend to repairs of taps etc , in the localities The intensive leaning so far carried out in the 2nd, 3rd, 4th and 5th divisions has been appreciated by the public and the press and much good has been the result of this scheme

Mr P P Ramiah supporting the Note said that i they wanted t the scheme to be a succe s, they should give sufficient men to cope up with this work This was a permanent feature of the Municipality and hence it would be not be possible to be drawing men from all divisions to work at a particular spot on the intensive cleaning days, as such the proceedure will affect the localities from whers the men have been drawn Mere increase in the staff may not improve matt rs unless zeal and enthusiasm ar infused into these workers and they are made to work wholeheartedly Further, the conditions in places where the poor lived were very deplorable and this scheme should concentra e on such spots For the scheme to work efficiently he said that the cooperation of the Councillors particularly of the divisional councillers was necessary and so he urged that the divisional councillo s may be consulted before selecting places

Mr G Nanjappa wanted to know if the staff that would be entertained in this connec ion would work continuously and what time it would take for every division to be ~~xxxxdge~~ visited again The President informed the House that the staff are wholetime servants and that they could go round the division once in six weeks These gangs would be under the control of the Health Officer and if the ex ra staff was ask sanctioned, then there would not be any need for selecting porti ns of divisions as they were doint at present

Mr L S Raju speaking next observed that this was a modest schemeand the Municipality would be failing in its duty if it did not spend necessary amoun s for such staff etc. The drawing of men from several divisions to work in a particular division was not healthy and so this extra staff was very necessary He next brought to the notice of the House that the Government had passed the Public Health Bill very recently and that under that Bill, the Government could insist upon the Municipality to do certain things for the health of the City So it was better if the Council did not give room for such such an int rference on the part of the Government

Mr G Nanjappa wanted to know who would supervise the work if the gang worked daily and suggested that since the Executive and the President would have other works to attend to, it was better that this scheme was put under the control of a responsible officer. He further pointed out that the provision of Rs 40/- per silt cart was very little and they would not be able to get carts at that rate. He suggested that since this scheme was very expensive and important, it was better the Health Officer was given two Assistants more to attend to the supervision of this work. As re the working of the scheme, he suggested that once the rubbish in the area was collected, arrangements should be made for its transport from the locality without any delay, all the materials required in this connection should be purchased and kept ready immediately and one responsible officer should be appointed to be in charge of this work.

Mr W H Hanumanthappa suggested that in addition to the entertainment of Assistant Health Officers, they should also give an Assistant to the Municipal Engineer.

Mr M.A Gopalaswami Iyengar next observed that this scheme was a weekly affair and the Note wanted the extra staff for the scheme. So these casual people would work once a week and they would have no work for the rest of the days. Further, according to the present staff, there were 815 men for sweeping and scavenging and if these men with their officers worked fully and wholeheartedly, there would not be any work for the extra staff. What was needed was not an increase in the number of men but a great zeal and enthusiasm in work on the part of the existing staff. The entertainment of the additional staff would on the other hand reduce the zeal of the present staff. The present insanitary and unhealthy condition of the City was in no small measure due to the slackness with which the rules and bye-laws were being enforced. Prosecutions launched against offenders would be withdrawn on the intervention of somebody or due to some influence. Such things should not be encouraged. He had heard that some of the Municipal Councillors were interesting themselves in such cases and withdrawals came to the Executive with recommendations for withdrawals. In all such cases, he said, the Executive instead of withdrawing the cases, should take action against the members themselves under the Act and thus get them disqualified under Section 14. Further, want of good understanding and cooperation between one type of workmen and another like the siltcartmen and the sweepers would greatly affect the working of the scheme and may lead to its failure. He had seen the sweepers putting the accumulated rubbish in the dust-bins and the silt carts not removing the rubbish for days together with the result the place had become unbearable. As in Russia there should be Special Brigades (Shock Brigades) for this work here also. In addition to all this, there should be efficient supervision and the men should also be trained in their work. They had made separate provision for entertainment of gangmen in the budget and hence there was no necessity for this extra staff.

Mr M A Gopalaswami Iyengar continuing said that this question ought to have been first sent to the Health Committee and the Managing Committee because it dealt with health matters and involved financial matters. He suggested that this scheme may be supervised by the Health Committee.

Mr A J Khaleel next said that even if all the present staff worked every days there would be still work left to be done, since the City is growing day by day. Some places in Bangalore are in such a bad condition that it is impossible to live in those localities. To see that the sanitation of the City is maintained all round it is very necessary to appoint extra staff, as suggested in the Note. As re authorising authorising the Committee to supervise over this work, he opposed it and said that generally the Committees do not work and their supervision would also be slack. Instead he suggested that they may appoint an Officer of the rank of an Assistant Commissioner to work under the Commissioner and supervise this work.

xpending some money in this direction should not be grudged from the point of view of the health of the City The present schme scheme is an experimental one to be tried for one year and if it is found xx satisfactory, then they may make it permanent with any modifications that may be found necessary. Instead of putting off the scheme by referring it to any committee, they may sanction it immediately and see that something is done in this direction before the year was out

Mr P. Sivashankar said that it was clear from the talk so far that every one had appreciated the benefits of the scheme and was for sanctioning the Note . Bt But one or two Members like Mr M A Gopalswami Iyengar felt that the scheme as propounded now was defective and needed rectification That can be done if the Note is sanctioned The scheme was open for corrections and modifications xx at every stage As re the availability of carts, he said that it was very difficult to get at the rate mentioned, viz , Rs 40 per cart and suggested that they may correspond with the Government of India through the Mysore Government for getting more lorries But the staff now asked for was very necessary and they may sanctio the Note As re giving control to the Committee, he said that it was better if the Executive were held responsible for worki g the scheme successfully If necessary, they may give some more assists assistant Health Officers and Engineers to help the Health Officer and the Municipal Engineer.

Mr H C.Suryanarayana Rao next observed that this scheme ought to have been started much and earlier. The difficulties the felt during Karaga and other festivals were quite wellknown to every one in the House But he was sorry that while they were sanctioning extra expenditure, the sources sources of revenue had not been augmented The Government were no doubt in favour of this scheme but they should also come for ard with liberal contribution, to make it a success. So the Government also should come to the help of the Municipali y in this behalf . Lastly, he said that the workmen employed in this scheme had an idea that th had a holiday after the intensive cleaning of a particular day wa over and this notion should be removed

Mr T T Sharma speaking next said that the President should complimented for introducing the Scheme and said that there was no doubt the health of the City would be greatly improved under this scheme. In addition to increasing the staff, which was very essential, they should do propoganda work in health matters distributing handbills, leaflets etc , educating the public in health matters . Committing of nuisance by the children in ro roads, etc , and in front of houses sh uldbe controlled by penal ising the parents Putlic lectures should be arranged xx very frequently in health matters and thus culture propoganda should there thoroughly introduced . In addition to this, the hearty cooperation of the public in their efforts was very means necessary. The public should be taught the benefits of this scheme by propoganda, appealing to their good sense and even by force in some cases, if necessary An efficient supervision, a sufficient staff and proper persuasion would certainly lead the scheme to success

Mr Mirza Azeerulla Beig next said that the scheme was ver beneficial and that they may sanction the staff asked for The scheme was initiated by the Dewan and all the credit should go him For having put it into action, the President and the hres should be complimented Since it was started newly, the scheme might have defects and they may go on rectifying them xx as th proceed There was no need to refer it to any committee and th may sanction it immediately

Mr K.P Rameswari supporting the Note said that unless th made proper arrangements for transporting the accumulated rubb the scheme would be a failure It was meaningless to wait for transporting the rubbish once it was collected S they may approach Government for giving 6 lorries and till they are rec they may put off this

Mr P V Ramachandra Gupta said that in addition to [redacted] staff they should make arrangements to hold health exhibitions, cinema shows and should also purchase some more [redacted] for [redacted] ru nish

The Commissioner informed the House that since the present health, engineering and municipal staff was not sufficient to cope up with this work, he had placed a Note for extra establishment re quick removal of rubbish, he had prepared another Note which would go before them at the next meeting by which 4 more lorries and some more silt carts ought to be engaged It would be better if the Municipality owned its own bullock carts as in Mysore Municipality As re improved supervision, he said that since the Council had also been convinced about the necessity for assistant Health Officer and Engineer, he would place proposals before them in this matter

The President said that he was very much satisfied with the way in which the proposals placed before them were accepted All the defects pointed out by some the Members would be considered and every effort put forth to remedy them As Mr [illegible] Sharma suggested the propeganda van would be used for this work The hands of the Executive so far as prosecutions were concerned would be strengthened so that they may do their wor without any sort of hesitation.

Then the Note was put to vote and passed unanimously

Sd/- C R Narasinga Rau,
Honorary President

City Municipal Offices,
Bangalore, dated 21st April 194-

Note

Regarding the appointment of a Special Mobile Gang for attending the weekly Intensive Cleaning of the City

Weekly Intensive Cleaning of the City and the repairs of roads and drains etc , with a view to remove black spots in the City is being now done by utilising the services of existing Gangmen, Sweepers and Scavengers, etc , As this work is to be taken up on a weekly basis, it would probably take six to nine months to cover the whole area of the City Further, by utilising the services of the existing staff for the Special work, the routine work in the several divisions will also suffer As the City has been growing very rapidly in recent years, owing to the formation of new extensions and as conjection in the several parts of the City has considerably increased within the last two or three years due to the movements of the military and the starting of the Hindusthan Aircraft, the existing sanitary staff is not adequate to satisfactorily cope with the daily routine work Assuch, it is quite necessary to appoint a special mobile gang for intensive cleaning work and the repairs of roads and drains etc The Health Officer wants the following establishment, in addition to Rs 10,000/- towards initial expenditure for purchasing a lorry and also implements required for the Gang-

No	Particulars	No	Rate of pay	monthly	Annual
1	One Sanitary Inspector	1	35/- plus 5/- C A in grade 25-2-55-4-87	40/-	480/-
2	Two Asst -do-	2	25/- plus 5/- C A in grade 25-1-35	60/-	720/-
3.	Ten Daffedars	10	Rs 13/- each	130/-	1560/-
4	Sweepers, Scavengers, Drain Cleaners, etc	100	Rs 12/- each	1200/-	14400/-
5	4 Silt Carts	4	Rs 40/- each	160/-	1920/-
6	1 Lorry Driver	1	35/-	35/-	420/-
7	1 Cleaner	1	Rs 12/-	12/-	144/-
			Total	1637/-	19644/-

13.

The following additional establishment is required in the Engineering Section

A Gang for attending to repairs of roads, drains, etc

	P M	P A
2 Head Coolies on 14/- each	28/-	336/-

Report of Special Gangwork done at Parvathipuram on 8-1-1944

45 persons including sweepers and scavengers, khalihat gang, 4 Daffedars, 2 Assistant Sanitary Inspectors, ore Sanitary Inspector, cyanogas gang, one Special Duty Sub Assistant Surgeon and the Sub Registrar of Births and Deaths of the division were deputed to Parvathipuram on 8-1-1944 to continue the Special Gang-work started on 3-1-1944. 5 silt carts were sent to that section for the removal of the silt and rubbish. 12 Gangmen, one Maistry and one Sub overseer were posted by the Municipal Engineer for carrying out the minor engineering works.

The extensive maidans situated between Parvathipuram and Vokkaligar Sangha was thoroughly swept. All loose stones rank vegetations were removed. All lanes and bye lanes situated be-tween the main road and the above mentioned maidan were thoroughly swept. All the surface drains and private latrines situated in the wing were cleaned and washed with water. The 2 latrines of Vokkaligar Sangha were also thoroughly cleaned that day 25 car s loads of silt and rubbish, loose stones and rank vegetation were removed from the area

p t o

16

23 houses were cyanogassed and 56 persons were inoculated against plague. The formation of road in Parvathipuram was continued by the Engineering gang. Excavation of certain drain was also continued and joined to the existing V shaped slap drain measuring a length of about 150 feet. A few humps situated here and there were sliced off and small pits were filled with this mud. Pitching stones were set right in the southern end of the main road. The Health Officer and Municipal Engineer inspected the place and gave necessary directions to the officials concerned as the work could not be completed that day, the work was continued on 15-1-1944

PROCEEDINGS OF THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE

Read -

Letter No A5 C-1056/43-44 dated 23rd May 1944 from the Municipal Commissioner, Bangalore City, requesting sanction to the employment of a special gang for the intensive cleaning of the City daily

ORDER No L/129279

Dated, Bangalore, 28 June 1944

The Municipal Commissioner, Bangalore City has stated that the City has been growing very rapidly in recent years, owing to the formation of new extensions and that congestion has considerably increased in the several parts of the City within the last two or three years due to the movements of the Military and the starting of the Hindustan Air Craft Factory, with the result that the existing Sanitary staff is found to be inadequate to attend satisfactorily to the sanitation work in the City every day It is accordingly considered necessary to arrange for the intensive cleaning of the City daily by appointing a Special Gang for the purpose. He has submitted proposals for the employment of an additional staff at a recurring expenditure of Rs 29,178 per year (Rs 19,644 for the Health Section and Rs 9534 for the Engineerin Section) and for the purchase of the necessar equipment - including a lorry - at a cost of Rs 10,000/-

The Municipal Council have approved of these proposals at their meeting held on 8-5-44 and the Municipal Commissioner requests sanction to the ~~above proposal.~~

Government consider that the proposals made by the Bangalore City Municipal Council are suitable and necessary in the interest of the maintenance of the Health and Sanitation in the City and are accordingly pleased to sanction the same. The expenditure in this behalf during the current year will be met out of the Closing Balance and due provision should be made therefor in the future budgets of the Municipality

24th August 1944

Dear Sir,

Release Order No 86 – 2 Chevrolet chassis
t the Bangalore City Municipality

In continuation of my demi-official letter No. 327/T dated 17th August 1944 on the above subject, I am desired to state that the Chief Commandant, Mysore State Troops, has since informed this office that the 2 Chevrolet chassis were taken delivery of by him on the 15th instant and sent to the Works Manager, Mysore State Railways, Mysore, for body construction I am, therefore, to request you kindly to take over the vehicles from the Works Manager and arrange to pay the cost of the vehicles to the Chief Commandant, Mysore State Troops, who has already paid Messrs Simpson and Company

A report of action taken by you may kindly
